

# *Curved Log Cabin*

WOW! Can you believe the come back of the Log Cabin? Some traditions are just too good to let go. Now we have made it curve! The curves are created by using different size logs. The logs can be made from your stash or with fat quarters or a combination of both. You can do this scrappy or very planned, your choice. Beginners as well as advanced quilters are equally intrigued with this design. The pattern possibilities for the log cabin are just endless, so come make your blocks and play with the plentiful potential designs. See you on the curve!

## Supplies: Pattern \$ 8.00

Sewing machine and regular sewing supplies, extension cord & power strips

Thread and filled bobbins – gray or neutral

Rotary cutting supplies, including rulers, we will “true up” after each round, 3”, 4 ½” & 6”

Iron and pressing surface, Mary Ellen’s Best Press clear starch if you would like

A reducing glass ( peep hole ) and Small design wall

Curved Log Cabin pattern -- \$8 with the class --- payable to instructor at class time

## Fabrics:

1. Light fabric – 2 ½” yards if using all one color light  
OR 10 fat quarters if using different lights  
OR lots from your stash
2. 1 yard for the center squares
3. Dark fabric – From your stash bring a variety of mediums and darks  
OR 10 medium to dark fat quarters
4. Backing 4 ½ yards
5. Binding 1 yard

Quilt measures approximately 55” X 66”

Block size 5 ½” finished

## Pre-Cutting:

Bring your basket of scraps! Separate them into lights and darks

Center Squares -- cut (2) 1 ½” strips, re-cut into 1 ½” squares

Bring remaining fabric to class

Light Logs – the light logs are cut 1 “ (My white fabric)

Dark logs -- the dark logs are cut 1 ½” (My dark/med fabrics)
